Conference Chair: Ezio Puppin

The Italian National Conference on Condensed Matter Physics, FisMat 2013, will be held from September 9 to 13, 2013 at the Politecnico di Milano which will celebrate his 150<sup>th</sup> anniversary in 2013. The first edition of the Conference will be included in the calendar of events planned for this celebration. This conference represents a great opportunity to gather the large community of scientists involved in condensed matter physics working in Universities, research institutions and large scale facilities.
